Cresta AI Deployment Managers own the moment cutting-edge AI becomes live, adopted, measured. That is Informatica IPS/SEAL: embed in the customer environment, hit the date and the metric, leave a team that can scale. Last 24 months: private RTX 4070 lab, measured agents, bounded MCP. Remote US. Available.

01 — YOUR SUCCESS LINES · MY RECEIPTS

GETS USED 19/20 recovered. Dawn featured because the load actually moved. If humans do not run it Tuesday, it did not launch.	ON TIME / METRICS PepsiCo v9→v10 zero data loss. Micron zero downtime. Navy Federal architecture through go-live.	READY TO SCALE Named skill-up. TCS kept Mercedes docs. QA twin of production. Hypercare is default.
---	---	---

02 — DEPLOY MOTION

Embed Parachute closer. Live CX-adjacent and ops floors: West Bend quotes, Navy Federal, insurance, CPG, fab. I sit with the people who have to use it.	Write the path Environment Summary. Upgrade Roadmap. Phase review. Six-class test. Internal teams get a plan, not a Slack thread. Public playbook on the packet.	Leave the team Coaching is a deliverable. Clients asked for me by name. Loyalty talk given on Dawn's floor — the product Cresta sells.

03 — INDEPENDENT LAB · AUG 2024 — PRESENT

4070 Tabby Tavern Stack Private LLM on RTX 4070 / WSL2: TabbyAPI EXL3, Ollama, Open WebUI, CUDA. huggingface.co/jpanasuk/tabby-tavern-stack	27× Local Grid Suite Discover, bench, GPU routing, SQLite, CLI + PDF. 1.39 → 37.47 tok/s. Same loop as a customer deploy: measure before claiming.
MCP Dockroot-MCP Agents see Docker/network. They do not get host-root. Hand the agent the boundary, not the box.	Agents OpenClaw + pipeline Systems → architect → validator. Production WhatsApp agents, 10+ skills. Multi-provider routing with failover.

Also retained through 2025 for Informatica production rescue: Grid/HA, PowerExchange CDC, IDQ, v9/v10, SOAP/REST, install-to-go-live, hypercare.

Cresta: shipping AI is half the story. I own the other half — live, adopted, measured, ready to scale. I am not applying to learn deployment. You named my job.
